August 31, 2009

Dear Students, Parents and Alamo Heights ISD Employees,

The health and well-being of AHISD students is our greatest concern. Due to last year and this summer's developments regarding cases reported in Texas and San Antonio, AHISD would like to inform our community of some helpful, preventative measures.

The Centers for Disease Control (CDC), recommends the precautions and suggestions on the back of this letter. For more information, please visit [www.flu.gov](http://www.flu.gov).

We are taking every precaution to ensure the health of our students in our schools by encouraging hand washing with antibacterial soap and regular disinfection of classrooms and school buses.

Additionally, we are in constant contact with local physicians and the Metropolitan Health Department. Dr. Kevin Brown and I are attending a meeting next week with other area superintendents. Dr. Fernando Guerra, Director of Metro Health--San Antonio's Public Health Team, will be updating us about his department's recommendations for preventing the spread of flu as well as other communicable diseases.

Please know that we are taking every precaution to protect the Alamo Heights community. If you have questions about the flu or any other medical situation, please consult your family doctor. The school nurse on your campus can also assist you.

Bettye Gibson, RN  
Coordinator of Health Services
