FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

Alamo Heights Independent School District San Antonio, TX

Members of the Board of Trustees:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, discretely presented component unit, each major fund, and the aggregate remaining fund information of Alamo Heights Independent School District, as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise Alamo Heights Independent School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Alamo Heights Independent School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Alamo Heights School Foundation, which represents the only discretely presented component unit. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Alamo Heights School Foundation, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Alamo Heights School Foundation were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, discretely presented component unit, each major fund, and the aggregate remaining fund information of Alamo Heights Independent School District, as of August 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information (as listed in the table of contents) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Alamo Heights Independent School District's basic financial statements. The supplementary information (individual budgetary comparison statements and schedule of expenditures of federal awards as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit) and other information (schedule of delinquent taxes receivable and schedule of school first indicators) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2019 on our consideration of Alamo Heights Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Alamo Heights Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

Armstrong, Vaughan & Associates, P.C.

Armstong, Vauspa & Associates, P.C.

November 21, 2019

Alamo Heights Independent School District

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of Alamo Heights Independent School District, discuss and analyze the District's financial performance for the fiscal year ended August 31, 2019. Please read it in conjunction with the independent auditors' report, and the District's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

- The District's net position increased by \$5.8 million as a result of this year's operations.
- In the District's business-type activities, revenues increased to \$135 thousand (4%) while expenses decreased to \$94 thousand (40%).
- Total cost of all of the District's programs increased \$18.6 million (23%). Changes in the net OPEB and pension liabilities accounted for \$17.8 million of the increase.
- The General Fund ended the year with a fund balance of \$18.1 million, an 7.1% increase. The increase was the result of a modest increase in enrollment, and increased property valuations.
- The expenditures for the 2018-2019 school year were \$766 thousand less than budgeted in the General Fund. The net change in fund balance was \$2.5 million better than budgeted.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net position and the Statement of Activities. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the district.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations can be found in the government-wide Statements of Net Position and Activities. Their primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies. These statements also include the financials of the Alamo Heights School Foundation, a legally separate entity that exists solely to benefit the District and its constituents.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities of from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets and liabilities) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non-financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the District into two kinds of activities:

- Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.
- Business-type activities—The District charges a fee to "customers" to help it cover all or most of the cost of services it provides.

In addition, these statements present financial information for the District's component unit (the Alamo Heights School Foundation) in a separate column. The Foundation is a legally separate entity that exists to raise money in the interest of the District.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds — governmental and proprietary—use different accounting approaches:

• Governmental funds—Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

• Proprietary funds—The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position of the District's governmental activities increased \$5.8 million. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was a deficit of (\$16.9) million at August 31, 2019, an improvement of \$2.4 million. Adding back the net pension and net other post-employment benefits leaves a positive \$15.6 million.

A summarized statement of net position follows:

		August 31, 2019		August 31, 2018
	Governmental	Business-type		
	Activities	Activities	Total	Total
Current and Other Assets	\$ 83,114,972	\$ 81,087	\$ 83,196,059	\$ 116,552,456
Capital Assets	130,888,698	<u> </u>	130,888,698	96,729,898
Total Assets	214,003,670	81,087	214,084,757	213,282,354
Deferred Outflows	11,549,408		11,549,408	6,066,651
Current Liabilities	7,757,193	936	7,758,129	6,005,050
Long-Term Liabilities	227,479,010	<u> </u>	227,479,010	227,197,361
Total Liabilities	235,236,203	936	235,237,139	233,202,411
Deferred Inflows	8,569,994		8,569,994	10,069,927
Net Investment in Capital Assets	(4,801,016)	-	(4,801,016)	(8,337,564)
Restricted	3,494,455	-	3,494,455	3,781,688
Unrestricted	(16,946,558)	80,151	(16,866,407)	(19,367,457)
Total Net Position	\$ (18,253,119)	\$ 80,151	\$ (18,172,968)	\$ (23,923,333)

The District's total revenues increased \$22.0 million (26%). \$11.0 million of this increase is attributable to changes in state funding of TRS pension and other post employment benefits. The rest of the increase is made up primarily of property tax collections (\$6.6 million), state allotments (\$1.3 million) and investment earnings (\$2.1 million).

The cost of all governmental activities this year was \$100.0 million compared to \$81.4 million in the prior year. \$17.8 million of the \$18.6 million increase related to changes in the TRS pension and other post-employment benefit liabilities. The amount that our taxpayers ultimately financed for these activities through District taxes was \$86.2 million while some of the costs were paid by those who directly benefited from the programs or by other governments and organizations that subsidized certain programs with grants and contributions.

Increase (Decrease) in Net Position	\$ 5,791,668	\$ (41,303)	\$ 5,750,365	\$ 2,303,175

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds reported a combined fund balance of \$74.5 million, which was a decrease of \$35.0 million. The decrease is attributable to the spending on bonds issued in 2018. Construction will continue into the 2020 fiscal year.

Over the course of the year, the Board of Trustees revised the District's budget. The General Fund expenditures were \$767 thousand less than the final budgeted appropriations, and the fund balance increased \$2.5 million more than anticipated. Most of the savings related to recapture payments to the State. Revenues beat projections because of increased enrollment and property valuations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2019, the District had \$96.7 million (net) invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. Voter approved renovations are in process, with significant additions to buildings continuing this year.

	Beginning			Ending
	Balance	Additions	Disposals	Balance
Land	\$ 2,900,273	\$ -	\$ -	\$ 2,900,273
Construction in Progress	15,967,885	35,142,549	-	51,110,434
Buildings and Improvements	140,756,464	1,301,924	-	142,058,388
Equipment	15,181,088	1,524,885	(1,454,818)	15,251,155
Vehicles	2,151,525	183,064	(47,252)	2,287,337
Less: Accumulated Depreciation	(80,227,337)	(3,993,622)	1,502,070	(82,718,889)
Net Capital Assets	\$ 96,729,898	\$ 34,158,800	\$ -	\$ 130,888,698

Land and construction in progress are not depreciated.

Debt

At year-end, the District had \$193 million in bonds outstanding versus \$201 million from the prior year. More detail information about the district's debt is presented in the notes to the financial statements.

					Amounts
	Beginning			Ending	Due Within
	Balances	Increases	Decreases	Balances	One Year
Governmental Bonds:					
Private Placement Bonds	\$ 3,810,000	\$ -	\$ (2,210,000)	\$ 1,600,000	\$ 280,000
Bonds Offered to Public	186,350,000	-	(5,005,000)	181,345,000	7,670,000
Unamortized Premiums	10,974,135		(883,032)	10,091,103	861,788
Total Bonds	201,134,135		(8,098,032)	193,036,103	8,811,788

ECONOMIC & AREA FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's 2019-2020 budget projects general fund expenditures will decrease \$4.3 million to \$77.3 million. The decrease is expected to come in reduced State recapture to fund other districts. The General Fund balance is expected to decrease \$58 thousand. The overall tax rate for the district decreased from 1.255 to 1.195. All of the decrease is in the general fund but with increasing property tax valuations and reduced State recapture, the District does not anticipate a reduction in resources available to fund general operations. The District does not expect any significant changes to operations for the upcoming fiscal year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at Alamo Heights Independent School District, 7101 Broadway, San Antonio, Texas 78209.

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AUGUST 31, 2019

TOTAL FUND BALANCE - TOTAL GOVERNMENTAL FUNDS	\$	74,497,397
Amounts reported for governmental activities in the Statement of Net Position ("SNA") are different because:		
Capital Assets used in governmental activities are not financial resources and therefore, are not reported in the funds.		130,888,698
Long-term liabilities, including bonds payable and unamortized premiums, are not due and payable in the current period and therefore, not reported in the funds.		(193,036,103)
Losses on debt refundings do not consume current financial resources and are not not reported in the funds.		1,072,203
Net pension liabilities (and related deferred inflows and outflows of resources) do not consume current financial resources and are not reported in the funds. Net Pension Liability (16,072,991) Pension Related Deferred Inflows (2,065,602) Pension Related Deferred Outflows 8,938,723		(9,199,870)
Net OPEB liabilities (and related deferred inflows and outflows of resources) do not consume current financial resources and are not reported in the funds. Net OPEB Liability (18,369,916) OPEB Related Deferred Inflows (6,504,392) OPEB Related Deferred Outflows 1,538,482		(23,335,826)
Deferred inflows of resources are not available to pay for current-period expenditures and therefore, are deferred in the funds.		1,416,717
Accrued interest payable on long-term bonds is not due and payable in the current period, and therefore, not reported in the funds.	_	(556,335)

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2019

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (35,022,481)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlay as expenditures. However in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation.	34,158,800
Revenues in the Statement of Activities that do not provide current financial resources	3 1,120,000
are not reported as revenue in the funds. This is the net change in those revenues over the year.	(63,050)
Governmental funds report required contributions to employee pensions and other post-employment benefits as expenditures. However in the Statement of Activities, the cost of benefits are recorded based on the actuarially determined cost of the plan. This is the amount that the actuarially determined expenses exceeded the contributions. Pension (1,153,565) Retiree Insurance (114,496)	(1,268,061)
The issuance of long-term debt (e.g. bonds & notes payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position.	
Principal Payments 7,215,000	7,215,000
Some expenses reported in the Statement of Activities (including accreted and accrued interest expense) do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. Governmental funds report the net effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. Accrued Interest 17,358 Amortization of Book Losses on Debt Refundings (128,930) Amortization of Bond Premiums 883,032	771,460
CHANGE IN NET POSITION - GOVERNMENTAL ACTIVITIES	\$ 5,791,668

A. Summary of Significant Accounting Policies

The basic financial statements of Alamo Heights Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity."

The Alamo Heights School Foundation ("Foundation") is a 501(c)3 nonprofit organization whose purpose is to receive and administer gifts for the Alamo Heights Independent School District. The Foundation is legally separate from the District but solely benefits the District and its constituents. The Foundation is included in the District's financial statements as a discretely presented component unit. Separate financial statements are issued by the Foundation and can be obtained from Alamo Heights School Foundation, P.O Box 171393, San Antonio, TX 78217.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

A. Summary of Significant Accounting Policies (Continued)

- 2. Basis of Presentation, Basis of Accounting (Continued)
 - a. Basis of Presentation (Continued)

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

<u>General Fund</u>: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

<u>Debt Service Fund</u>: Is used to account for all funds collected and disbursed in the retirement of governmental debt.

<u>Capital Projects Fund</u>: The District reports proceeds from bond issuances related to capital acquisition in this fund. The related capital acquisitions are also reported in this fund.

The District reports no major enterprise funds.

In addition, the District reports the following fund types:

Private-Purpose Trust Funds: These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments not reported in other fiduciary fund types.

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

A. Summary of Significant Accounting Policies (Continued)

2. Basis of Presentation, Basis of Accounting (Continued)

b. Measurement Focus, Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District does not consider revenues collected after its year-end to be available in the current period. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

3. Financial Statement Amounts

a. Cash and Cash Equivalents

For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased. Equivalents include checking accounts and local government investment pools.

b. Investments

The District reports investments at fair value based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

A. Summary of Significant Accounting Policies (Continued)

3. Financial Statement Amounts (Continued)

b. Investments (Continued)

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool maintains a consistent net asset value per share that approximates the fair value of the underlying securities. These investments are reported at net asset value.

c. Inventories and Prepaid Items

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

d. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. Taxes Receivable in the governmental funds are stated net of allowance for uncollectible tax receivables in the amount of \$51,389 and \$7,588 for the General and Debt Service Funds, respectively.

e. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances. There are no significant receivables which are not scheduled for collection within one year of year end.

A. Summary of Significant Accounting Policies (Continued)

3. Financial Statement Amounts (Continued)

f. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 for individual purchases and \$100,000 for group technology and furniture purchases is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
Buildings and Improvements	40
Vehicles	10
Equipment	3-25

g. Deferred inflows and outflows

A deferred outflow of resources is a consumption of net position by the government that is applicable to a future reporting period while a deferred inflow of resources is an acquisition of net position. These items are presented in separate sections following assets (deferred outflows) or liabilities (deferred inflows) on the statement of net position.

h. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line on the government-wide statement of net position.

i. Net position - Proprietary Funds and Government-wide Statement of Net position

Net position is classified as follows:

Restricted - Represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

A. Summary of Significant Accounting Policies (Continued)

3. Financial Statement Amounts (Continued)

i. Net position - Proprietary Funds and Government-wide Statement of Net position (Cont.)

Net Investment in Capital Assets - Represents the balances of capital assets less the outstanding balances of debt related to the acquisition of the capital assets. This amount is separated from unrestricted net position so that the unrestricted classification represents net position more readily available to fund operations.

Unrestricted - Represents the residual net position that is not restricted or capital in nature.

The Foundation reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily or permanently restricted net position are reclassified to unrestricted net position.

j. Pensions

The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement System of Texas (TRS) and additions to/ deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

k. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

1. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

A. Summary of Significant Accounting Policies (Continued)

3. Financial Statement Amounts (Continued)

1. Fund Balances - Governmental Funds (Continued)

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action by the District's Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Board of Trustees. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund, conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

m. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

n. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

B. <u>Deposits and Investments</u>

1. Cash Deposits

The District's funds are deposited and invested under the terms of a depository contract which requires the District's agent bank to pledge securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The District's cash deposits at August 31, 2019 and during the year ended August 31, 2019, were entirely covered by FDIC insurance and pledged collateral. At year end, the District also had certificates of deposit at various institutions that were fully insured by FDIC.

2. Investments

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The District's investments at August 31, 2019 are shown below.

	Weighted Average		
Investment or Investment Type	Maturity (Days)	Re	ported Value
Local Government Debt Securities	168	\$	682,708
Federal Government Debt Securities	190		50,958,216
Certificates of Deposit	433		3,687,634
Total Investments		\$	55,328,558

B. Deposits and Investments (Continued)

2. Investments (Continued)

The Foundation's investments at August 31, 2019 are shown below.

Investment or Investment Type	rvestment or Investment Type Fair Va	
Cash Equivalents	\$	46,825
Equity Securities		7,573,805
Total Investments	\$	7,620,630

The certificates of deposit are reported at amortized cost. The debt securities are reported at fair value based on Level 1 inputs. The Foundation invests in debt and equity securities, which are reported at fair value based on Level 1 inputs.

3. Analysis of Specific Deposit and Investment Risks:

The District has evaluated the following specific investment risks at year end:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

B. Deposits and Investments (Continued)

3. Analysis of Specific Deposit and Investment Risks (Continued):

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares. The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. The District reports its investments in Pools as cash and cash equivalents. As of August 31, 2019, the District was invested in the following Pools:

Local Government Investment Pool	Rating	Fa	ir Value
Texpool	AAAm	\$	53,549
Texas TERM - TexasDAILY	AAAm		72
Lone Star	AAAm		9,464
Texas Class	AAAm	2	3,870,027
Total Investment Pools		\$ 2	3,933,112

C. Capital Assets

Capital asset activity for the year ended August 31, 2019, was as follows:

	Beginning		Transfers/	Ending	
	Balances*	Increases	Decreases	Balances	
Governmental Activities:					
Capital Assets Not Being Depreciated:					
Land	\$ 2,900,273	\$ -	\$ -	\$ 2,900,273	
Construction in Progress	15,967,885	35,142,549		51,110,434	
Total Capital Assets Not Being Depreciated	18,868,158	35,142,549		54,010,707	
Capital Assets Being Depreciated:					
Buildings and Improvements	140,756,464	1,301,924	-	142,058,388	
Equipment	15,181,088	1,524,885	(1,454,818)	15,251,155	
Vehicles	2,151,525	183,064	(47,252)	2,287,337	
Total Capital Assets Being Depreciated	158,089,077	3,009,873	(1,502,070)	159,596,880	
Less Accumulated Depreciation For:					
Buildings and Improvements	(69,172,122)	(1,588,085)	-	(70,760,207)	
Equipment	(9,473,706)	(2,139,654)	1,454,818	(10,158,542)	
Vehicles	(1,581,509)	(265,883)	47,252	(1,800,140)	
Total Accumulated Depreciation	(80,227,337)	(3,993,622)	1,502,070	(82,718,889)	
Total Capital Assets Being Depreciated, Net	77,861,740	(983,749)		76,877,991	
Governmental Activities Capital Assets, Net	\$ 96,729,898	\$ 34,158,800	\$ -	\$ 130,888,698	

Land and construction in progress are not depreciated. Depreciation was charged to functions as follows:

11	Instruction	\$ 1,908,361
12	Instructional Resources and Media Services	73,843
23	School Leaders hip	147,686
31	Guidance, Counseling, & Evaluation Services	14,769
33	Health Services	24,484
34	Student Transportation	96,710
35	Food Services	130,169
36	Cocurricular/Extracurricular Activities	61,591
51	Plant Maintenance and Operations	69,133
53	Data Processing Services	1,465,484
81	Facilities Acquisition	 1,392
		\$ 3,993,622

E. Long-Term Obligations

1. Long-Term Obligation Activity

Long-term obligations include building and refunding bonds. Changes in long-term obligations for the year ended August 31, 2019, are as follows:

					Amounts
	Beginning			Ending	Due Within
	Balances	Increases	Decreases	Balances	One Year
Governmental Bonds:					
Private Placement Bonds	\$ 3,810,000	\$ -	\$ (2,210,000)	\$ 1,600,000	\$ 280,000
Bonds Offered to Public	186,350,000	-	(5,005,000)	181,345,000	7,670,000
Unamortized Premiums	10,974,135		(883,032)	10,091,103	861,788
Total Bonds	201,134,135		(8,098,032)	193,036,103	8,811,788
Other Long-term Obligations:					
Net Pension Liability	9,513,478	7,543,224	(983,711)	16,072,991	-
Net OPEB Liability	16,549,748	2,073,971	(253,803)	18,369,916	
Grand Total	\$ 26,063,226	\$ 9,617,195	\$ (1,237,514)	\$ 34,442,907	\$ -

Bonds Sold to the Public have interest rates ranging from 2.0-5.0%. Direct Placement Bonds have interest rates of 0.97-2.96%.

2. Debt Service requirements on bonded debt at August 31, 2019, are as follows:

Year Ending	Public Offering				
August 31,	Principal	Total			
2020	\$ 7,670,000	\$ 6,535,894	\$ 14,205,894		
2021	7,985,000	6,230,869	14,215,869		
2022	9,105,000	5,855,707	14,960,707		
2023	9,600,000	5,496,457	15,096,457		
2024	10,235,000	5,176,288	15,411,288		
2025-2029	42,715,000	21,831,016	64,546,016		
2030-2034	33,215,000	16,039,020	49,254,020		
2035-2039	33,710,000	9,997,538	43,707,538		
2040-2043	27,110,000	27,110,000 2,586,713			
Totals	\$ 181,345,000	\$ 79,749,502	\$ 261,094,502		
Year Ending		Direct Placement			
August 31,	Principal	Interest	Total		
2020	\$ 280,000	\$ 42,408	\$ 322,408		
2021	180,000	36,408	216,408		
2022	180,000	31,080	211,080		
2023	185,000	25,678	210,678		
2024	185,000	20,202	205,202		
2025-2027	590,000	26,492	616,492		
Totals	\$ 1,600,000	\$ 182,268	\$ 1,782,268		

E. Long-Term Obligations (Continued)

3. Other Long-term Debt Disclosures

In accordance with Securities and Exchange Act of 1934 Rule 15c2-12, the District has entered into a continuing disclosure agreement with the Municipal Securities Rulemaking Board. The District has complied with these continuing disclosures.

The District has three bond series that were directly placed at local banking institutions. The bond documents do not contain subjective acceleration clauses, events of default with finance-related consequences or termination events with finance-related consequences.

In May 2017, the voters approved \$135 million in new bonds. \$15 million was issued in the 2017 fiscal year, and \$100 million from the 2018 bonds counted against the authorized amount, leaving \$20 million authorized but not issued.

Advance refundings of debt result in difference between the carrying amount of refunded obligations and the payment to defease the debt. These differences are recorded on the Statement of Net Position and amortized over the life of the shorter of the new or refunded obligations. As of August 31, 2019, the District reported \$1,072,203 in deferred refunding losses that will be amortized in future periods.

G. Pension Plan

1. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms. All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

2. Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.tx.us/about/documents/cafr.pdf#CAFR or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

G. Pension Plan (Continued)

3. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature.

4. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 85th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2018 and 2019.

	Contribution Rates		
_	Plan fiscal year		
	2018	2019	
Member (Employee)	7.7%	7.7%	
Non-employer Contributing Entity (State)	6.8%	6.8%	
Employer	6.8%	6.8%	
Member (Employee)	\$	2,234,448	
Non-employer contributing agency (State)		1,536,688	
District		902,055	
	\$	4,673,191	
	•		

G. Pension Plan (Continued)

4. Contributions (Continued)

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

G. Pension Plan (Continued)

5. Actuarial Assumptions

The total pension liability in the August 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2017

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Market Value

Investment Rate of Return 7.25%
Single Discount Rate 6.907%

Salary Increases Including Inflation 3.05% to 9.05%

Inflation 2.3%
Ad Hoc Post-Employment Benefit Changes None
Projection Period through August 31, 2116

Municipal Bond Rate 3.69%. Fidelity 20-Year AA Municipal

The actuarial methods and assumptions are based primarily on a study of actual experience for the three year period ending August 31, 2017 and adopted in July 2018.

6. Discount Rate

The discount rate used to measure the total pension liability was 6.907%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.69 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

G. Pension Plan (Continued)

6. Discount Rate (Continued)

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2018 are summarized below:

			Long-Term
		Real	Expected
		Return	Portfolio
	Target	Geometric	Real Rate
Asset Class	Allocation	Basis	of Return*
Global Equity			
U.S.	18%	5.7%	1.0%
Non-U.S. Developed	13%	6.9%	0.9%
Emerging Markets	9%	8.9%	0.8%

Total	100%		7.2%

^{*}The expected contribution to returns incorporates the volatility drag resulting from the conversion between arithmetic and geometric mean returns.

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used in measuring the Net Pension Liability.

	19	1% Decrease		Current		1% Increase	
		5.907%		6.907%	7.907%		
District's proportionate share of				_			
the net position liability	\$	24,257,998	\$	16,072,991	\$	9,446,743	

G. Pension Plan (Continued)

8. Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At August 31, 2019, the District reported a liability of \$16,072,991 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share	\$ 16,072,991
State's proportionate share	25,123,796
Total	\$ 41,196,787

The net pension liability was measured as of August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the employer's proportion of the collective net pension liability was 0.0292010946% which was a decrease of 0.0005521279% from its proportion measured as of August 31, 2017.

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The Total Pension Liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8.0 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long-term assumed rate of return changed from 8.0 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the Net Pension Liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2019, the District recognized pension expense of \$3,154,706, including \$2,486,586 for support provided by the State.

G. Pension Plan (Continued)

At August 31, 2019, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred		Deferred	
		Outflows	Inflows	
Differences between expected and actual experience	\$	100,186	\$	394,368
Changes of assumptions	5,795,088			181,097
Net difference between projected and actual earnings				
on pension plan investments		835,302		1,140,275
Changes in proportion and differences between District				
contributions and proportionate share of contributions		1,226,419		349,862
District contributions subsequent to the measurement date		981,728		-
Total	\$	8,938,723	\$	2,065,602

The \$981,728 in deferred outflows of resources related to pensions from District contributions after the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2019. The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending August 31,	Pension Expense		
2020	\$	1,571,012	
2021		929,223	
2022		760,893	
2023		1,015,705	
2024		998,378	
Thereafter		616,182	
	\$	5,891,393	

H. Other Post-Employment Benefits

1. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established in accordance with the Texas Insurance Code, Chapter 1575.

2. OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

3. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers, and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may elect to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basis and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic postemployment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A&B coverage, with 20 to 29 years of service for the basic plan and the two optional plans.

TRS-Care Plan Premium Rates

	2018			
			TRS	S-Care 2
	_ N	Medicare		medicare
Retiree*	\$	135	\$	200
Retiree and Spouse		529		689
Retiree* and Children		468		408
Retiree and Family		1,020		999
* or surviving spouse				

H. Other Post-Employment Benefits (Continued)

4. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions made from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	\sim		••	. •	-	
1	'n	ntr	ahıı	tion	L Pa	tac

_	Years Ending August 31,		
	2018	2019	
Member (Employee)	0.65%	0.65%	
Non-employer Contributing Entity (State)	1.25%	1.25%	
Employer	0.75%	0.75%	
Federal/Private Funding Remitted by Employers	1.25%	1.25%	

	Contributions	
	Req	uired and
		Made
Member (Employee)	\$	188,290
Non-employer contributing agency (State)		391,033
District		233,090
	\$	812,413

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS-Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$182.6 million in fiscal year 2018. The 85th Texas Legislature, House Bill 30 provided an additional \$212 million in one-time, supplemental funding for the FY2018-19 biennium to continue to support the program. This was also received in FY2018 bringing the total appropriations received in fiscal year 2018 to \$394.6 million.

H. Other Post-Employment Benefits (Continued)

5. Actuarial Assumptions

The total OPEB liability in the August 31, 2017 actuarial valuation was rolled forward to August 31, 2018. The actuarial valuation was determined using the following actuarial assumptions. The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation:

Rates of Mortality General Inflation
Rates of Retirement Wage Inflation

Rates of Termination Expected Payroll Growth

Rates of Disability Incidence

Valuation Date August 31, 2017

Actuarial Cost Method Individual Entry Age Normal

Inflation 2.30% Discount Rate* 6.69%

Aging Factors Based on plan specific experience

Expenses Third-party administrative expenses related to the

delivery of health care benefits are included in the

age-adjusted claims costs.

Payroll Growth Rate 2.50%

Projected Salary Increases** 3.50% to 9.05%

Election Rates Normal Retirement: 70% participation prior to age 65

and 75% participation after age 65

Ad hoc post-employment benefit changes None

6. Discount Rate

A single discount rate of 3.69% was used to measure the total OPEB liability. There was an increase of .27 percent in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to *not be able to* make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

^{*}Source: Fixed Income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2018.

^{**}Includes inflation at 2.50%

H. Other Post-Employment Benefits (Continued)

7. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used in measuring the Net OPEB Liability.

	1%	Decrease in	Di	scount Rate	1%	Increase in
		2.69%	3.69%		3.69% 4.69%	
District's Proportionate Share				_		
of Net OPEB Liability	\$	21,866,511	\$	18,369,916	\$	15,603,883

8. Healthcare Cost Trend Rates Sensitivity Analysis

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% point lower or 1% point higher than the assumed healthcare cost trend rate.

	 7.50%	Tren	d Rate (8.5%)	9.50%
Proportionate share of Net	_		_	_
OPEB Liability	\$ 15,256,514	\$	18,369,916	\$ 22,470,333

9. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2019, the District reported a liability of \$18,369,916 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District Proportionate Share	\$ 18,369,916
State's Proportionate Share	28,342,963
	\$ 46,712,879

The net OPEB liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018, the employer's proportion of the collective net OPEB liability was 0.0367906646% which was a decrease of 0.0012667647% from its proportion measured as of August 31, 2018.

H. Other Post-Employment Benefits (Continued)

9. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (Continued)

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected the measurement of the total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This changed increased the Total OPEB Liability.
- The discount rate was changed from 3.42 percent as of August 31, 2017 to 3.69 percent as of August 31, 2018. This change lowered the Total OPEB Liability \$2.3 billion.
- Change of Benefit Terms Since the Prior Measurement Date Please see the 2018 TRS CAFR, page 68, section B. for a list of changes made effective September 1. 2017 by the 85th Texas Legislature.1.

For the year ended August 31, 2019, the District recognized OPEB expense of \$8,070,858, including \$1,030,943 for support provided by the State.

At August 31, 2019, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of	Resources
Differences between expected and actual economic experience	\$	974,823	\$	289,904
Changes in actuarial assumptions		306,544		5,519,106
Difference between projected and actual investment earnings Changes in proportion and difference between the employer's		3,213		-
contributions and the proportionate share of contributions		65		695,382
Contributions paid to TRS subsequent to the measurement date	253,837			_
	\$	1,538,482	\$	6,504,392

H. Other Post-Employment Benefits (Continued)

9. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (Continued)

The \$253,837 in deferred outflows of resources related to OPEB from District contributions after the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ended August 31, 2020. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

	OPEB		
		Expense	
Year ending August, 31		Amount	
2020	\$	(809,491)	
2021		(809,491)	
2022		(809,491)	
2023		(810,099)	
2024		(810,446)	
Thereafter		(1,170,729)	
	\$	(5,219,747)	

I. Medicare Part D Coverage

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2019, 2018 and 2017, the subsidy payments received by TRS-Care on behalf of the District were \$124,006, \$99,611, and \$100,307, respectively.

J. Employee Health Care Coverage

During the year ended August 31, 2019, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$362-392 per month per employee to the Plan depending on plan options and dependents covered. Employees, at their option, authorized payroll withholdings to pay the remaining premiums for themselves and dependents. All premiums were paid to a third party administrator, acting on behalf of the licensed insurer. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement. The contract between the District and the third party administrator is renewable September 1, and terms of coverage and premium costs are included in the contractual provisions. Latest financial statements for the Plan are available for the year ended August 31, 2018, have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

K. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District purchased commercial insurance to insure property and liability. In previous years, District participated in the Texas Association of Public Schools Property and Liability Fund (TAPS). TAPS was a self-insurance pool established under the Texas Interlocal Cooperation Act. Membership is limited to public school districts, community colleges and education service centers. The District pays estimated annual contributions which may be adjusted for any shortfall in the pool. TAPS has since filed for bankruptcy. The District may be liable for additional contributions or unpaid claims. Management does not believe this will have a material impact on the District's financial statements.

The District met its statutory workers' compensation obligations through a modified self-funded program. The District (through a third-party administrator) pays all workers' compensation claims up to a maximum stop-loss amount. The stop loss amount for the year ending August 31, 2019 was \$122,558. Actual paid claims for the fiscal years ending August 31, 2019, 2018, and 2017 were \$222,759, \$53,781, and \$171,012, respectively.

L. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired.

2. Litigation

The District is subject to various claims through its normal course of business and employment practices. Management and legal counsel are not aware of any pending or threatened litigation against the District that would have a material financial impact on the District.

3. Commitments

The District has entered into engineering and construction contracts for the 2018 bond projects for an estimated total amount of \$105.1 million. As of August 31, 2019, \$41.3 million has been incurred, leaving an estimated amount remaining of \$63.8 million.

	REQUIRED SUPPLEMENTARY INFORMATION information includes financial information and disclosures required by the
Governmental Accounting	g Standards Board but not considered a part of the basic financial statements.

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2019

BUDGETARY INFORMATION

The budget is prepared in accordance with accounting principles generally accepted in the United States of America. The District maintains strict budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Trustees and as such is a good management control device.

Budgetary preparation and control is exercised at the function level. Actual expenditures may not legally exceed appropriations at the fund level.

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION ON PENSIONS AUGUST 31, 2019

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The Total Pension Liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8.0 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long-term assumed rate of return changed from 8.0 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the Net Pension Liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION ON OPEB AUGUST 31, 2019

The following were changes to the actuarial assumptions or other inputs that affected the measurement of the total OPEB liability since the prior measurement period:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
- Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This changed increased the Total OPEB Liability.
- The discount rate was changed from 3.42 percent as of August 31, 2017 to 3.69 percent as of August 31, 2018. This change lowered the Total OPEB Liability \$2.3 billion.
- Change of Benefit Terms Since the Prior Measurement Date Please see the 2018 TRS CAFR, page 68, section B. for a list of changes made effective September 1. 2017 by the 85th Texas Legislature.

COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Alamo Heights Independent School District San Antonio, TX

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Alamo Heights Independent School District as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise Alamo Heights Independent School District's basic financial statements, and have issued our report thereon dated November 21, 2019. Our report includes a reference to other auditors who audited the financial statements of the Alamo Heights School Foundation, as described in our report on Alamo Heights Independent School District's financial statements. The financial statements of Alamo Heights School Foundation were not audited in accordance with *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Alamo Heights Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alamo Heights Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Alamo Heights Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Alamo Heights Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Armstrong, Vaughan & Associates, P.C.

Arontong, Vauspan & Associates, P.C.

November 21, 2019

INDEPENDENT AUDITOR'S REPORT

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH UNIFORM GUIDANCE

Board of Trustees Alamo Heights Independent School District 7101 Broadway San Antonio, TX 78209

Report on Compliance for Each Major Federal Program

We have audited Alamo Heights Independent School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2019. Alamo Heights Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Alamo Heights Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Alamo Heights Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our compliance audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on Alamo Heights Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Alamo Heights Independent School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2019.

Report on Internal Control over Compliance

The management of Alamo Heights Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Alamo Heights Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Alamo Heights Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Armstrong, Vaughan & Associates, P.C.

Arontony, Vauspan & Associates, P.C.

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2019

- 1. For all Federal programs, the District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special revenue funds are used to account for resources restricted, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
- 2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial measurement focus. All Federal grant funds were accounted for in the General Fund or Special Revenue Fund, which are Governmental Fund types. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenue in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as unearned revenue until earned.

- 3. According to AAG-SLG Appendix D, Questions and Answers, most Medicaid arrangements between states and providers (SHARS) are contracts for services and not Federal assistance; they should not appear on the Schedule of Expenditures of Federal Awards.
- 4. The District has not elected to use the 10% de minimis indirect cost rate as allowed by Uniform Guidance.
- 5. Reconciliation of the Schedule of Expenditures of Federal Awards to Exhibit C-2 is as follows:

 Federal Program Revenues and Expenditures:

 General Fund
 \$ 1,209,393

 Special Revenue Fund
 2,186,733

 3,396,126

 Less SHARS
 (1,146,862)

2,249,264

Total per Schedule of Expenditures of Federal Awards (See Exhibit K-1)

ALAMO HEIGHTS INDEPENDENT SCHOOL DISTRICT SCHEDULE OF REQUIRED RESPONSES TO SELECTED SCHOOL FIRST INDICATORS AS OF AUGUST 31, 2019

Data		
Control		
Codes		Responses
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any debt agreement at fiscal year end?	No
SF4	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
