Year at a Glance (YAG)

All lessons will be designed around the AH Profile of a Learner strand “Employ Skills for Life,” by encouraging the development of a strong work ethic and an exhibition of professionalism. Students will be encouraged to take risks, accept challenges and value the learning that comes from failure, and display grit and resilience in the face of challenge. Students will demonstrate adaptability and flexibility, effectively manage time, provide the teacher with assessment of progress, and evaluate their own progress through self reflection. The program will remind students to exhibit exceptional character at all times while nurturing a lifelong enthusiasm for learning.
